

Fall 2014

Our seminars are sponsored by

Date	Time	Presenter/Subject	Location
Wed, Sept 17	4:30 - 6 pm	John Busbridge , senior geotechnical consultant, Golder Associates, Mississauga, " Underground Construction in Singapore – Overcoming Geotechnical Challenges "	Ellis 324
Wed, Sept 24	4:30 - 6 pm	Matthew J. Lato, PhD, PEng, RockSense GeoSolutions Inc. . " High-resolution 3D imaging techniques for mapping and monitoring natural hazards along railway lines "	Ellis 324
Wed, Oct 1		NO SEMINAR Geo Regina Conference	
Wed, Oct 8	4:30 - 6 pm	Richard Bathurst, Civil Engineering, Royal Military College, " Challenges and recent progress in the analysis, design and modelling of geosynthetic reinforced soil walls "	Ellis 324
Wed, Oct 15	4:30 - 6 pm	Michel Aubertin, Ecole Polytechnique de Montreal, Scientific Director of the Research Institute on Mines and the Environment, " Self-weight consolidation problems related to surface and underground disposal of fine-grained mine wastes "	Ellis 324
Wed, Oct 22	4:30 - 6 pm	The Victor Milligan Lecturer: Guy Housby , MA, DSc, FREng, FICE, Professor, Civil Engineering, University of Oxford, UK, " Interactions in Offshore Foundation Design "	Ellis 324
Wed, Oct 29	4:30 - 6 pm	Suzanne Powell, PhD, P.Eng, Thurber Engineering, Victoria, BC, " Looking at the past, present and future from the perspective of a former graduate student "	Ellis 324
Wed, Nov 5	4:30 - 6 pm	Pietro Jarre, Golder Associates, Italy, " Take a five early on. Conceptualization is never good enough. Examples from my early experiences as Geo engineer "	Ellis 324

Fall 2014

Our seminars are sponsored by

Wed, Nov 12	4:30 - 6 pm	William Likos, PhD, Civil and Environmental Engineering, University of Wisconsin, " Unsaturated Soil Mechanics: Principles and Applications "	Ellis 324
Mon , Nov 17	4:30 - 6 pm	Alex Baumgard, P.Eng. (BC, AB), P.Ge. (BC, AB), Senior Geotechnical / Environmental Engineer, BGC Engineering INC., " The Trans Mountain Expansion Project: A Local Project with a National Presence "	MacCorry E229
Wed, Nov 19	4:30 - 6 pm	The Kingston Section of the CGS is pleased to announce the fall CGS Cross Canada Lecture Tour Dr. Ryan Phillips, Principal Consultant at C-Core, Director of Dr. Jack Clark Geotechnical Centrifuge Facility Lecture, " Pipeline-soil interaction: Flowing hot and cold "	Ellis 324
Wed, Nov 26	4:30 - 6 pm	Bernie Kueper, Civil Engineering, Queen's University, " Chlorinated Solvent Source Zone Remediation – Key Issues "	Ellis 324
